GUGUMUCK

Escargots have long been a favoured delicacy in Austrian cuisine. In the 18th century, Vienna even had its own snail market, where so-called ‘Escargot wenchens’ sold their ‘Vienna oysters’. The most popular ways to prepare them were boiled or fried in bacon fat, served with mulled cabbage.

Especially during Lent, Vienna was the centre of escargot consumption in Europe. Not considered to be meat, snails were in demand. Andreas Gugumuck has reintroduced this great tradition, bringing escargots back to the best restaurants in Austria. Unlike conventional

meat production, snails can be produced using limited resources. The animals live free-range, and feed on locally grown vegetables and herbs.

Since 2010 he has been organising Escargot festivals in the best Austrian restaurants, where each chef comes up with a special snail dish; the list of participating restaurants can be seen at www.gugumuck.at/schneckenwochen/.

Awards for his Vienna Escargot Farm soon began rolling in, among them in 2012, when he was chosen as Europe’s Best Young Farmer by the European Parliament.

FISCHEREI AUSSEERLAND

As of 1 January 2018, the Austrian Federal Forestry Office fishery has been leased to Forst Authal & Co Ltd., operating as ‘Fischerei Ausseerland’.

The most significant innovation here is the intentional absence of a distributor. All fish have been marketed directly since January. The clients are customers from the hospitality industry – now served directly – and private consumers, who have four fish markets at their disposal in Kainisch, Bad Aussee, Grundlsee and Hallstatt.

As was already the case with the Austrian Forestry Office, the focus is placed upon those species native to Ausseerland – above all the Arctic Char.

For the lakes of the Salzkammergut and the surrounding countryside, the Federal Austrian Forestry Offices are in charge, fishing at Lake Hallstatt, Lake Grundl and Lake Toplitz. Here, fish are harvested from their natural habitat with the use of weirs and nets, either offered for sale as wild-caught, or used as spawning stock for farmed fish.

Thanks to their natural motion and intense movements, the lean meat of these fish is quite firm and rich in saturated Omega-3 fatty acids.

KAES.AT

kaes.at
direkt vom bauern

Stephan Gruber loves good cheese. The physicist embarked in 2002 upon a visionary project and opened the first pioneering cheese webshop in Austria. Since then, customers can order the best Bregenzerwalder

Mountain Cheese straight from the farmer.

Kaes.at also sees itself as an ambassador for artisanal raw milk cheese from Austria and Switzerland, supporting farmers and small dairies.

The Bregenzerwalder Mountain Cheese, Vollfettbergkase (made from whole milk) from Arthur Gasser and cheese specialties from the exceptional Swiss cheesemaker Willi Schmid, offered by Kaes.at, are prized among consumers and restaurateurs. In addition to the webshop, kaes.at can be found every Saturday at the Vienna markets (Karmelitermarkt, Yppenplatz and Naschmarkt).

For the Big Austrian Wine party, Stephan Gruber will provide selected Austrian raw milk cheeses from artisanal Austrian producers such as Josef Pranz, Eva Nuart, Markus Metzler and more.

ÖFFERL BROT

DAMPF
BÄCKEREI
ÖFFERL
BROT MIT
CHARAKTER

At the ‘steam bakery’ Öfferl in the village of Gaubitsch in the winegrowing area Niederösterreich, we have been baking bread for three generations, a family business since 1968. Two years ago, we converted our entire operation to organic production and are aiming toward adopting biodynamic guidelines. We and our selected regional suppliers work hand in hand with nature, giving the raw materials and final products the time they need.

That is, we think, what makes them good for both the palate and the body. That includes avoiding use of any chemical sprays or additives. Honest food simply tastes better. Today, as in the past, we bake bread in a steam oven. Twice. This is how our bread gets its fluffy core and the crisp crust. We still rely on our old family recipes, which we spice up with much love, dedication, and through numerous tasting sessions. Everything is done by hand: the raw milk rolls, our popular ‘Madame Crousto’ bread and the poppy seed strudel. That’s why no product is like any other and each expresses its own distinctive character.

THUM SCHINKEN

THUM Schinkenmanufaktur produces traditional, classic Viennese hams. Their special ham is made in the traditional Prague style according to the Thum family's secret recipe from 1860. Roman Thum, great-great-grandson of founder Raimund Thum, has updated this artisanal craft to the modern day: real handiwork through veining, according to tradition. In this process, the ham is treated as a whole in order to obtain an incomparably juicy structure. When pickling, the brine is gently introduced through the natural branching of the veins. Thanks to this technique, the meat fibres remain completely intact, which ensures the unique taste of each individual ham. The meat is gently smoked over beech shavings and then cooked gently with steam. Roman Thum's many years of experience, dedication and passion for the products ensure the perfect result.

THUM Schinkenmanufaktur works exclusively with natural ingredients. In order to create special flavours, THUM's ham is refined with cranberries, pumpkin seeds and herbs, which emphasizes the meat's own flavour. These spice mixtures contain only the best raw materials and are made according to the old family recipe. This summer, the company will move to a new location in the Triesterstrasse for better logistic and customer support.

Typ 1: Sparkling wine

Austria produces first-class sparkling wines – a tradition that goes back to the 19th century. Specialists in the bubbly sector – from light Frizzante to hand-riddled premium sparkling wine – extend from private “manufacturers” to larger wineries.

Typ 2: White wine - light and fresh

This range of Austrian white wines are lively, vibrant, and fit perfectly to any season: from the “Junger Österreicher” to “Steirischer Junker”; from a light Grüner Veltliner, such as a Steinfeder from the Wachau, to a delicate, spicy Welschriesling from Styria; and there are those “tasty” Schmeckerten with low alcohol, like Muskateller or Müller-Thurgau.

Typ 3: White wine - classic & dry

Austria’s classic white wines are filled with freshness, fine acidity, great elegance and plenty of character. They are medium-bodied as well. This clear profile includes: Grüner Veltliner at the Kabinett level - especially the DAC wines (Weinviertel DAC and Traisental DAC); fresh Riesling from the wine-growing areas along the Danube river; elegant Weißburgunder and Chardonnay from Burgenland, plus representatives in the Styrian Classic family (Sauvignon Blanc, Morillon, Weißburgunder). The classic dry white wines are produced in all of Austria’s wine-growing areas.

Typ 4: White wine - powerful & bodied

This category’s profile is best described with „Reserve“. The wines are vinified dry with body and extract, opulence and concentration. Beside the majority of wines which are classically vinified are those reflecting an international character through their maturation in small oak barrels. Prime examples are site wines from Grüner Veltliner and Riesling (such as Smaragd-level wines from the Wachau and premium wines from the area along the Danube or from the Weinviertel). Highly individual personalities are reflected in the powerful Zierfandler and Rotgipfler varieties from the Thermenregion, as well as the complex Weißburgunder and Chardonnay from Burgenland. Rounding out the category are the great Steiermark (Styria) site wines, whose varieties include Sauvignon Blanc, Morillon, Weißburgunder and Grauburgunder, plus specialities from Vienna like Neuburger, Roter Veltliner and the Gemischter Satz.

Typ 5: Rosé - racy & fruit-toned

Rosés come from all of the country’s wine-growing areas and convey a wide range of expressions. For example, there are charming young wines like the Primus Pannonikus from Burgenland, and there are the fresh Zweigelt and St. Laurent from Niederösterreich (Lower Austria), as well as the racy, zesty Schilcher from Weststeiermark (West Styria).

Typ 6: Red wine - classic and fruity

These are wines vinified in the classic style, and matured in either large wooden casks or steel tanks. They exude typically Austrian fruitiness, but also show depth and are not too high in alcohol: this means wines that reflect typicity of origin, elegance and pure drinking pleasure. Playing a leading role in this category are Zweigelt, which is at home in nearly all of the wine-growing areas, notably Carnuntum; and Blaufränkisch, of which enticing variants are produced especially in Mittelburgenland.

Typ 7: Red wine - compact and concentrated

The wines of this level are compact and full; wines of complexity, depth and long ageing potential. They are concentrated red wines that highlight a rich array of grape varieties and sites. Some are produced as cuvées with just moderate expressions of wood. While they are matured in barriques, these top red wines reflect depth of fruit and typicity of terroir. Particularly noteworthy is that the Austrian varieties like Zweigelt, Blaufränkisch and St.Laurent stand out from classics like Pinot Noir and the international varieties like Cabernet & Co.

Typ 8: White wine - off-dry and medium-sweet

Wines in the higher Spätlese and Auslese ranges have some of the greatest storage potential of Austrian wines. In their youth, these wines exude plenty of finesse with supple sweetness and a vivid fruit-acidity play. The palette extends from aromatic Muskat Ottonel from Burgenland, (Gewürz-)Traminer from Steiermark (Styria), and Neuburger, Chardonnay, Weißburgunder, Grüner Veltliner and Riesling from the various wine-growing areas, to the great Spätlesen and Auslesen of the special varieties Zierfandler and Rotgipfler from the Gumpoldskirchen area.

Typ 9: Noble sweet wines

These include Beerenauslesen and Trockenbeerenauslesen, Strohwein and Schilfwein, Eiswein with expressive, buttery smoothness, and the nobly refined Ruster Ausbruch. Characteristic of these sweet wine rarities are natural residual sweetness and highly-concentrated acidity, usually in combination with the incomparable noble rot flavours. In this group, Austria is truly world class. However, the category does have slight complications, such as the lack of a cohesive identity of origin, especially in comparison to Tokaji and Sauternes.
